

PARTNERS

WHAT

SHHS is supported with tremendous programmatic advocacy, financial backing, and human capital to ensure the continuance and expansion of academic, co-curricular and extra-curricular activities. Great effort on the part of our partners and staff go in to ensuring student' needs are met and our obligation to the whole child is fulfilled.

In addition to school affiliated organizations, various entities provide scholarships to outgoing 12th grade students totaling upwards of a quarter of a million dollars each year. This generosity makes post-secondary education a more viable option for our students and communicates a commitment to life-long learning.

Our greatest partner is the entire St. Helena community. Through great foresight, the St. Helena community has approved two local bond measures that have brought state-of-the-art facilities to the SHHS campus. These facilities are a testament to the student experience and our district vision and mission, covering athletic fields, a performing arts center, a Career Technical Education complex, and one to one computing.
