# COVID-19 Prevention Program

An Addendum to the Injury and Illness Program: *In accordance with TITLE 8, DIVISION 1, CHAPTER 4, Subchapter 7. General Industry Safety Orders Section 3205, COVID-19 Prevention*

## (a) Scope.

(1) This program applies to all employees and all places of employment, with the following exceptions:

- (A) Places of employment with one employee who does not have contact with other persons.
- (B) Employees working from home.
- (C) Employees when covered by section [5199, Aerosol Transmissible Diseases](#).

## (b) Definitions. The following definitions apply:

**“COVID-19”** means coronavirus disease, an infectious disease caused by the severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2).

**“COVID-19 case”** means a person who:

- (1) Has a positive “COVID-19 test” as defined in this section;
- (2) Is subject to COVID-19-related order to isolate issued by a local or state health official; or
- (3) Has died due to COVID-19, in the determination of a local health department or per inclusion in the COVID-19 statistics of a county.

A person is no longer a “COVID-19 case” in this section when a licensed health care professional determines that the person does not have COVID-19, in accordance with recommendations made by the California Department of Public Health (CDPH) or the local health department pursuant to authority granted under the Health and Safety Code or title 17, California Code of Regulations to CDPH or the local health department.

- (1) “Close contact” means being within six feet of a COVID-19 case for a cumulative total of 15 minutes or greater in any 24-hour period within or overlapping with the “high-risk exposure period” defined by this section. This definition applies regardless of the use of face coverings.

EXCEPTION: Employees have not had a close contact if they wore a respirator required by the employer and used in compliance with section 5144, whenever they were within six feet of the COVID-19 case during the high-risk exposure period.

- (2) “COVID-19” means coronavirus disease, an infectious disease caused by the severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2).

(3) “COVID-19 case” means a person who:

- (A) Has a positive “COVID-19 test” as defined in this section; or
- (B) Has a positive COVID-19 diagnosis from a licensed health care provider; or
- (C) Is subject to a COVID-19-related order to isolate issued by a local or state health official; or
- (D) Has died due to COVID-19, in the determination of a local health department or per inclusion in the COVID-19 statistics of a county.

- (4) “COVID-19 hazard” means potentially infectious material that may contain SARS-CoV-2, the virus that causes COVID-19. Potentially infectious materials include airborne droplets, small particle aerosols, and airborne droplet nuclei, which most commonly result from a person or persons exhaling, talking or vocalizing, coughing, or sneezing, or from procedures performed

# COVID-19 Prevention Program

An Addendum to the Injury and Illness Program: *In accordance with TITLE 8, DIVISION 1, CHAPTER 4, Subchapter 7. General Industry Safety Orders Section 3205, COVID-19 Prevention*

on persons which may aerosolize saliva or respiratory tract fluids. This also includes objects or surfaces that may be contaminated with SARS-CoV-2.

- (5) "COVID-19 symptoms" means fever of 100.4 degrees Fahrenheit or higher, chills, cough, shortness of breath or difficulty breathing, fatigue, muscle or body aches, headache, new loss of taste or smell, sore throat, congestion or runny nose, nausea or vomiting, or diarrhea, unless a licensed health care professional determines the person's symptoms were caused by a known condition other than COVID-19.
- (6) "COVID-19 test" means a viral test for SARS-CoV-2 that is:
- (A) Approved by the United States Food and Drug Administration (FDA) or has an Emergency Use Authorization from the FDA to diagnose current infection with the SARS-CoV-2 virus; and
  - (B) Administered in accordance with the FDA approval or the FDA Emergency Use Authorization as applicable.
- (7) "Exposed group" means all employees at a work location, working area, or a common area at work, where an employee COVID-19 case was present at any time during the high-risk exposure period. A common area at work includes bathrooms, walkways, hallways, aisles, break or eating areas, and waiting areas. The following exceptions apply:
- (A) For the purpose of determining the exposed group, a place where persons momentarily pass through while everyone is wearing face coverings, without congregating, is not a work location, working area, or a common area at work.
  - (B) If the COVID-19 case was part of a distinct group of employees who are not present at the workplace at the same time as other employees, for instance a work crew or shift that does not overlap with another work crew or shift, only employees within that distinct group are part of the exposed group.
  - (C) If the COVID-19 case visited a work location, working area, or a common area at work for less than 15 minutes during the high-risk exposure period, and the COVID-19 case was wearing a face covering during the entire visit, other people at the work location, working area, or common area are not part of the exposed group.

NOTE: An exposed group may include the employees of more than one employer. See Labor Code sections 6303 and 6304.1.

- (8) "Face covering" means a surgical mask, a medical procedure mask, a respirator worn voluntarily, or a tightly woven fabric or non-woven material of at least two layers. A face covering has no visible holes or openings and must cover the nose and mouth. A face covering does not include a scarf, ski mask, balaclava, bandana, turtleneck, collar, or single layer of fabric.
- (9) "Fully vaccinated" means the employer has documented that the person received, at least 14 days prior, either the second dose in a two-dose COVID-19 vaccine series or a single-dose COVID-19 vaccine. Vaccines must be FDA approved; have an emergency use authorization from the FDA; or, for persons fully vaccinated outside the United States, be listed for emergency use by the World Health Organization (WHO).
- (10) "High-risk exposure period" means the following time period:
- (A) For COVID-19 cases who develop COVID-19 symptoms: from two days before they first develop symptoms until all of the following are true: it has been 10 days since symptoms first

## COVID-19 Prevention Program

An Addendum to the Injury and Illness Program: *In accordance with TITLE 8, DIVISION 1, CHAPTER 4, Subchapter 7. General Industry Safety Orders Section 3205, COVID-19 Prevention*

appeared; 24 hours have passed with no fever, without the use of fever-reducing medications, and symptoms have improved.

(B) For COVID-19 cases who never develop COVID-19 symptoms:, from two days before until 10 days after the specimen for their firstpositive test for COVID-19 was collected.

(11) “Respirator” means a respiratory protection device approved by the National Institute for Occupational Safety and Health (NIOSH) to protect the wearer from particulate matter, such as an N95 filtering facepiece respirator.

(12) “Worksite,” for the limited purposes of COVID-19 prevention regulations only, means the building, store, facility, agricultural field, or other location where a COVID-19 case was present during the high-risk exposure period. It does not apply to buildings, floors, or other locations of the employer that a COVID-19 case did not enter.

(A) NOTE: The term worksite is used for the purpose of notice requirements in subsections (c)(3)(B)3. and 4. only.

### (c) Written COVID-19 Prevention Program Components.

(District) has developed this written COVID-19 Prevention Program, in accordance with TITLE 8, DIVISION 1, CHAPTER 4, Subchapter 7. General Industry Safety Orders Section 3205, COVID-19 Prevention.

The District’s Prevention Program has been developed in accordance with the issued guidance from the State of California Department of Public Health and Cal/OSHA (Appendix A).

Elements of the COVID-19 Prevention Program include:

#### (1) System for communicating.

The District will do all of the following in a form readily understandable by employees:

# COVID-19 Prevention Program

An Addendum to the Injury and Illness Program: *In accordance with TITLE 8, DIVISION 1, CHAPTER 4, Subchapter 7. General Industry Safety Orders Section 3205, COVID-19 Prevention*

## (A) Employee Reports:

All employees of the District are to, without fear of reprisal, report to their Supervisor or Manager any of the following:

1. **COVID-19 symptoms:** If any employee is experiencing any of the identified symptoms of COVID-19
2. **Possible COVID-19 exposures:** If any employee has been exposed or possibly exposed to an individual who is positive for, or has been diagnosed with COVID-19.
3. **Possible COVID-19 hazards at the workplace:** If any employee becomes aware of a possible hazard in the workplace that could increase the likelihood of exposure to COVID-19.

### Methods of Reporting:

1. To Whom:

2. How:

3. Where:

4. When:

(B) Procedures for accommodating employees with medical or other conditions that put them at increased risk of severe COVID-19 illness.

Insert your district procedure for requesting reasonable accommodation as it relates to high-risk employees.

### Recommended language:

Contact Human Resources for requesting reasonable accommodation as it relates to high-risk medical conditions.

Employees who have disabilities or conditions that may place them at risk for serious complications from COVID-19 may request reasonable accommodations prior to returning to work in the physical worksite, regardless of their vaccination status. Such requests should be directed to \_\_\_\_\_ [name and title] will review and consider each request on a case-by-case basis using an individualized interactive process. The district will implement reasonable and effective accommodations, provided they do not impose an undue burden on operational continuity, or create

# COVID-19 Prevention Program

An Addendum to the Injury and Illness Program: *In accordance with TITLE 8, DIVISION 1, CHAPTER 4, Subchapter 7. General Industry Safety Orders Section 3205, COVID-19 Prevention*

an imminent risk of harm to the individual seeking the accommodation or others in the workplace.

Except when objective undue hardship would result, or in circumstances where an accommodation, if made, would present an imminent and substantial risk to the health and safety of the employee or others, the District shall provide reasonable accommodation to any qualified employee with a disability to perform the essential functions of the position they hold or to enjoy equal benefits or other terms, conditions, and privileges of employment as other similarly situated employees without disabilities. Reasonable accommodations will be evaluated through the District's established interactive process.

Employees with family members who have disabilities or conditions that may place them at risk for serious complications if exposed to COVID-19 and who wish to discuss their options should address their concerns to the Human Resources Department. While family member disabilities or medical conditions are not governed by law or FSUSD reasonable accommodation policies, we are receptive to addressing available options as a policy matter with affected employees. The district will address these matters on a case-by-case basis.

## (C) Access to COVID-19 testing.

If testing is required in accordance with this written program, the District shall inform any affected employees of the reason for the COVID-19 testing and the possible consequences of a positive test.

Insert your district procedures for access to testing, access to results, confidentiality protections and what to expect upon receipt of the results.

## Recommended language

COVID-19 testing will be offered to all unvaccinated employees and symptomatic vaccinated employees who were exposed in an FSUSD facility or work site, except employees who were not present when the positive case was at the work site during their infectious period **including when the testing is in response to CCR Title 8 section 3205.1, Multiple COVID-19 Infections and COVID-19 Outbreaks, as well as section 3205.2, Major COVID-19 Outbreaks** or a positive test.

The district will provide COVID-19 testing to all employees in our exposed workplace except for employees who were not present during the period of an outbreak identified by a local health department or the relevant 14-day period. COVID-19 testing will be provided at no cost to employees during employees' working hours.

COVID-19 testing consists of the following:

- All employees in our exposed workplace will be immediately tested and then tested again one week later. Negative COVID-19 test results of employees with COVID-19 exposure will not impact the duration of any quarantine period required by, or orders issued by, the local health department.

## COVID-19 Prevention Program

An Addendum to the Injury and Illness Program: *In accordance with TITLE 8, DIVISION 1, CHAPTER 4, Subchapter 7. General Industry Safety Orders Section 3205, COVID-19 Prevention*

- After the first two COVID-19 tests, we will continue to provide COVID-19 testing of employees who remain at the workplace at least once per week, or more frequently if recommended by the local health department, until there are no new COVID-19 cases detected in our workplace for a 14-day period.
- We will provide additional testing when deemed necessary by Cal/OSHA.

Insert specifics for district

# COVID-19 Prevention Program

An Addendum to the Injury and Illness Program: *In accordance with TITLE 8, DIVISION 1, CHAPTER 4, Subchapter 7. General Industry Safety Orders Section 3205, COVID-19 Prevention*

(D) COVID-19 hazards and the District’s COVID-19 policies and procedures to protect employees and other employers, persons, and entities within or in contact with the employer’s workplace.

Insert information regarding where to obtain the District’s policies and procedures to protect employees from COVID-19 hazards in the workplace.

NOTE: See subsections (c)(3)(C) and (c)(3)(D) for confidentiality requirements for COVID-19 cases.

## (2) Identification and evaluation of COVID-19 hazards.

(A) identification and evaluation of COVID-19 hazards

The district will include opportunities for employee and authorized employee representative participation in the identification and evaluation of COVID-19 hazards as follows;

Insert District methods here

(B) Employee Symptom Screening

The District has implemented a process for screening employees for and responding to employees with COVID-19 symptoms. The District has a process for screening employees for and responding to employees with COVID-19 symptoms.

Staff are to self-screen for symptoms daily prior to arrival on a campus or worksite.

Insert District process here – must be for all employees, regardless of vaccination status

# COVID-19 Prevention Program

An Addendum to the Injury and Illness Program: *In accordance with TITLE 8, DIVISION 1, CHAPTER 4, Subchapter 7. General Industry Safety Orders Section 3205, COVID-19 Prevention*

## (C) Response to COVID-19 case

The district has developed COVID-19 policies and procedures to respond effectively and immediately to individuals at the workplace who are a COVID-19 case to prevent or reduce the risk of transmission of COVID-19 in the workplace.

### Recommended language

The District and staff have developed COVID-19 policies and procedures to respond effectively and immediately to individuals at the workplace who are a COVID-19 case to prevent or reduce the risk of transmission of COVID-19 in the workplace.

For confirmed-positive COVID-19 cases in the workplace, the District and staff will limit transmission by:

- Ensuring that COVID-19 cases are excluded from the workplace until the return-to-work requirements are met.
- Excluding employees with COVID-19 close contacts from the workplace after the last known COVID-19 close contact to a COVID-19 case.
- Continuing and maintaining an employee’s earnings, seniority, and all other employee rights and benefits whenever we’ve demonstrated that the COVID-19 exposure is work related. This will be accomplished by:
  - Employee cooperates with and complies with contact tracing; and
  - Employee is offered testing on work time at no cost to the employee; and
  - Employee will exhaust leave provided by the California SB 95 Supplemental Paid Sick Leave. This Additional COVID Related Leave can be accessed prior to use of sick leave provided under the applicable bargaining agreement and/or Education Code.
- Providing information on available benefits to employees at the time of exclusion.
- If the workplace has been identified by a local health department as the location of a COVID-19 outbreak or if there are three or more COVID-19 cases in an exposed group within a 14-day period, COVID-19 testing will be offered to staff at no cost during working hours.

Insert District process here – on benefits

## (D) Workplace Assessment

The district will conduct a workplace-specific assessment to identify all interactions, areas, activities, processes, equipment, and materials that could potentially expose employees to COVID-19 hazards.

The District will take universal precautions and treat all persons, regardless of symptoms or negative COVID-19 test results, as potentially infectious.

1. This shall include identification of places and times when people may congregate or come in contact with one another, regardless of whether employees are performing an assigned work

# COVID-19 Prevention Program

An Addendum to the Injury and Illness Program: *In accordance with TITLE 8, DIVISION 1, CHAPTER 4, Subchapter 7. General Industry Safety Orders Section 3205, COVID-19 Prevention*

task or not, for instance during meetings or trainings and including in and around entrances, bathrooms, hallways, aisles, walkways, elevators, break or eating areas, cool-down areas, and waiting areas.

2. This shall include an evaluation of employees' potential workplace exposure to all persons at the workplace or who may enter the workplace, including coworkers, employees of other entities, members of the public, customers or clients, and independent contractors. Employers shall consider how employees and other persons enter, leave, and travel through the workplace, in addition to addressing fixed work locations.
3. The District and staff conduct workplace-specific assessments and will conduct periodic inspections to identify all interactions, areas, activities, processes, equipment, and materials that could potentially expose employees to COVID-19 hazards.
4. The District and staff will take universal precautions and treat all persons, regardless of symptoms or negative COVID-19 test results, as potentially infectious. This includes identification of places and times when people may congregate or come in contact with one another, regardless of whether employees are performing an assigned work task or not, for instance during meetings or trainings and including in and around entrances, bathrooms, hallways, aisles, walkways, elevators, break or eating areas, cool-down areas, and waiting areas.
5. This includes evaluation of employees' potential workplace exposure to all persons at the workplace or who may enter the workplace, including coworkers, employees of other entities, members of the public, customers or clients, and independent contractors. District and staff shall consider how employees and other persons enter, leave, and travel through the workplace, in addition to addressing stationary work.

Insert District process here

# COVID-19 Prevention Program

An Addendum to the Injury and Illness Program: *In accordance with TITLE 8, DIVISION 1, CHAPTER 4, Subchapter 7. General Industry Safety Orders Section 3205, COVID-19 Prevention*

## (E) Ventilation Systems

For indoor locations, the District will evaluate how to maximize the quantity of outdoor air and whether it is possible to increase filtration efficiency to the highest level compatible with the existing ventilation system.

Insert District process here

## Considerations for additional ventilation systems processes (OPTIONAL for consideration)

For indoor locations, the District evaluated how to maximize ventilation with outdoor air; to the highest level of filtration efficiency compatible with the existing ventilation system; and whether the use of portable or mounted High Efficiency Particulate Air (HEPA) filtration units, or other air cleaning systems, would reduce the risk of COVID-19 transmission.

The District recognizes the importance of a safe learning environment and providing improvements to the air filtration system with the intent to maximize the indoor air quality. The District's current HVAC systems function at a high level; however, additional improvements and replacement of units are being completed on a regular basis. The following are the additional planned improvements and implementation measures to the air filtration system to minimize the risk of transmission and infection of COVID-19 through the air.

1. All HVAC units have been thoroughly cleaned and sprayed with a disinfectant. The cleaning of the units consists of removing all dirt and debris from inside the units including cleaning the evaporator and condenser coils and spraying with a disinfectant.
2. MERV 13 filters have been installed in all HVAC units.
3. All HVAC systems at sites operate on the mode which delivers the most fresh air changes per hour, based on engineers' recommendations, including disabling demand-controlled ventilation and opening outdoor air dampers to maximum extent possible as indoor and outdoor conditions safely permit and to not sacrifice comfort.
4. Programming has been provided to maximize as much outside air exchange as conditions safely permit. Where possible, additional programming will be implemented to provide an indoor air flush prior to start up each morning.
5. Repairs and replacement of some HVAC systems will be implemented based on the age and condition of the units.

All inspections, repairs and services will be completed in coordination and in combination with outside engineers, contractors and vendors and utilizing school district personnel. Due to the high demand of MERV

## COVID-19 Prevention Program

An Addendum to the Injury and Illness Program: *In accordance with TITLE 8, DIVISION 1, CHAPTER 4, Subchapter 7. General Industry Safety Orders Section 3205, COVID-19 Prevention*

13 filters throughout the State, delivery dates of these filters could affect some completion dates.

A notice by each room's thermostat is posted indicating the list of items that have been implemented to improve the indoor air quality.

If an individual tests positive for COVID-19, the District will replace the HVAC filters in the associated classrooms at the school site.

### (F) Ongoing monitoring and review of orders and guidance

The District will monitor and review applicable orders and guidance from the State of California and the local health department related to COVID-19 hazards and prevention, including information of general application and information specific to the employer's industry, location, and operations.

Insert District process here

### (G) Evaluate existing prevention controls

The District will evaluate existing COVID-19 prevention controls at the workplace and the need for different or additional controls.

Insert District process here

# COVID-19 Prevention Program

An Addendum to the Injury and Illness Program: *In accordance with TITLE 8, DIVISION 1, CHAPTER 4, Subchapter 7. General Industry Safety Orders Section 3205, COVID-19 Prevention*

## (H) Periodic Inspections

The District will conduct periodic inspections as needed to identify unhealthy conditions, work practices, and work procedures related to COVID-19 and to ensure compliance with employers' COVID-19 policies and procedures.

Insert District process here

## (3) Investigating and responding to COVID-19 cases in the workplace.

### (A) Procedure to investigate COVID-19 cases in the workplace.

This includes procedures for verifying COVID-19 case status, receiving information regarding COVID-19 test results and onset of COVID-19 symptoms, and identifying and recording COVID-19 cases.

### (B) Response to a COVID-19 case in the workplace:

The District will take all of the following actions in response to a COVID-19 case on district premises.

1. Determine the day and time the COVID-19 case was last present and, to the extent possible, the date of the positive COVID-19 test(s) and/or diagnosis, and the date the COVID-19 case first had one or more COVID-19 symptoms, if any were experienced.
2. Determine who may have had a close contact. This requires an evaluation of the activities of the COVID-19 case and all locations at the workplace which may have been visited by the COVID-19 case during the high-risk exposure period.

*Note: See subsection (c)(9) for exclusion requirements for employees after a close contact.*

3. Within one business day of the time the employer knew or should have known of a COVID-19 case, the employer shall give written notice, in a form readily understandable by employees, that people at the worksite may have been exposed to COVID-19. The notice shall be written in a way that does not reveal any personal identifying information of the COVID-19 case. Written notice may include, but is not limited to, personal service, email, or text message if it can reasonably be anticipated to be received by the employee within one business day of sending. The notice shall include the disinfection plan required by Labor Code section 6409.6(a)(4). The notice must be sent to the following:
  - a. All employees at the worksite during the high-risk exposure. If the employer should reasonably know that an employee has not received the notice, or has limited literacy in the language used in the notice, the employer shall provide verbal notice, as soon as practicable, in a language understandable by the employee.
  - b. Independent contractors and other employers at the worksite during the high-risk exposure period.

## COVID-19 Prevention Program

An Addendum to the Injury and Illness Program: *In accordance with TITLE 8, DIVISION 1, CHAPTER 4, Subchapter 7. General Industry Safety Orders Section 3205, COVID-19 Prevention*

4. Within one business day of the time the employer knew or should have known of the COVID-19 case, the employer shall provide the notice required by Labor Code section 6409.6(a)(2) and (c) to the authorized representative of any employee at the worksite during the high-risk exposure period.
5. Make COVID-19 testing available at no cost during paid time to all employees of the employer who had a close contact in the workplace and provide staff with the information on benefits described in subsections (c)(5)(B) and (c)(9)(C) with the following exceptions:
  - a. Employees who were fully vaccinated before the close contact and do not have COVID-19 symptoms.
  - b. COVID-19 cases who returned to work pursuant to subsection 3205(c)(10)(A) or(B) and have remained free of COVID-19 symptoms, for 90 days after the initial onset of COVID-19 symptoms or, for COVID-19 cases who never developed symptoms, for 90 days after the first positive test.
6. Investigate whether workplace conditions could have contributed to the risk of COVID-19 exposure and what could be done to reduce exposure to COVID-19 hazards.
7. Site Administrator/Supervisor/Public Health and Safety Team members review the workplace setup and make adjustments, if necessary.

# COVID-19 Prevention Program

An Addendum to the Injury and Illness Program: *In accordance with TITLE 8, DIVISION 1, CHAPTER 4, Subchapter 7. General Industry Safety Orders Section 3205, COVID-19 Prevention*

Insert District process here

## (C) Confidentiality of Personal Identifying Information

Personal identifying information of COVID-19 cases or persons with COVID-19 symptoms, and any employee medical records required by this section or by sections 3205.1 through 3205.4, shall be kept confidential unless disclosure is required or permitted by law. Unredacted information on COVID-19 cases shall be provided to the local health department, CDPH, the Division, and NIOSH immediately upon request, and when required by law.

All personally identifying information regarding COVID-19 cases or persons with COVID-19 symptoms shall be kept confidential. All COVID-19 testing or related medical services provided by the employer under this section and sections 3205.1 through 3205.4 shall be provided in a manner that ensures the confidentiality of employees.

*EXCEPTION to subsection (c)(3)(C): Unredacted information on COVID-19 cases shall be provided to the local health department, CDPH, the Division, the National Institute for Occupational Safety and Health (NIOSH), or as otherwise required by law immediately upon request.*

## (D) Confidentiality of Employee Medical Records

All Employee medical records are kept confidential and are not disclosed or reported without the employee's express written consent to any person within or outside the workplace.

*EXCEPTION 1 to subsection (c)(3)(D): Unredacted medical records shall be provided to the local health department, CDPH, the Division, NIOSH, or as otherwise required by law immediately upon request.*

*EXCEPTION 2 to subsection (c)(3)(D): This provision does not apply to records that do not contain individually identifiable medical information or from which individually identifiable medical information has been removed.*

## (4) Correction of COVID-19 hazards.

The District has implemented policies and/or procedures for correcting unsafe or unhealthy conditions, work practices, policies and procedures in a timely manner based on the severity of the hazard.

## Correcting hazards

## Tracking completion of hazard correction

### (5) Training and instruction.

## Insert Policies & Procedures to provide training to employees in this section ...

The District has developed a training program for all employees with instruction to employees including, but not limited to, the following:

- The District’s COVID-19 policies and procedures to protect employees from COVID-19 hazards.
- Information regarding COVID-19-related benefits to which the employee may be entitled under applicable federal, state, or local laws. This includes any benefits available under workers’ compensation law, the federal Families First Coronavirus Response Act, Labor Code sections 248.1 and 248.5, Labor Code sections 3212.86 through 3212.88, local governmental requirements, the employer’s own leave policies, and leave guaranteed by contract.
- The fact that COVID-19 is an infectious disease that can be spread through the air when an infectious person talks or vocalizes, sneezes, coughs, or exhales; that COVID19 may be transmitted when a person touches a contaminated object and then touches their eyes, nose, or mouth, although that is less common; and that an infectious person may have no symptoms.
- Our COVID-19 policies and procedures to protect employees from COVID-19 hazards, and how to participate in the identification and evaluation of COVID-19 hazards.
- Information regarding COVID-19-related benefits (including mandated sick and vaccination leave) to which the employee may be entitled under applicable federal, state, or local laws.

# COVID-19 Prevention Program

An Addendum to the Injury and Illness Program: *In accordance with TITLE 8, DIVISION 1, CHAPTER 4, Subchapter 7. General Industry Safety Orders Section 3205, COVID-19 Prevention*

- The fact that: COVID-19 is an infectious disease that can be spread through the air when an infectious person talks or vocalizes, sneezes, coughs, or exhales
  - COVID-19 may be transmitted when a person touches a contaminated object and then touches their eyes, nose, or mouth.
  - An infectious person may have no symptoms.
- The fact that particles containing the virus can travel more than six feet, especially indoors, so physical distancing, face coverings, increased ventilation indoors, and respiratory protection decrease the spread of COVID-19 and are most effective when used in combination.
- The right of employees who are not fully vaccinated to request a NIOSH approved respirator (N95) for voluntary use, without fear of retaliation, and our policies for providing the respirators. Employees voluntarily using respirators will be trained according to section 5144(c)(2) requirements:
  - How to properly wear them.
  - How to perform a seal check according to the manufacturer's instructions each time a respirator is worn, and the fact that facial hair can interfere with a seal.
- The importance of frequent hand washing with soap and water for at least 20 seconds and using hand sanitizer when employees do not have immediate access to a sink or hand washing facility, and that hand sanitizer does not work if the hands are soiled.
- Proper use of face coverings and the fact that face coverings are not respiratory protective equipment. Since COVID-19 is an airborne disease, N95s and more protective respirators protect the users from airborne disease, while face coverings primarily protect people around the user.
  - The conditions where face coverings must be worn at the workplace.
  - That face coverings are additionally recommended outdoors for people who are not fully vaccinated if six feet of distance cannot be maintained.
  - Employees can request face coverings and can wear them at work regardless of vaccination status and without fear of retaliation.
- COVID-19 symptoms, and the importance of obtaining a COVID-19 test and not coming to work if the employee has COVID-19 symptoms.
- Information on our COVID-19 policies and how to access COVID-19 testing and vaccination, and the fact that vaccination is effective at preventing COVID-19, protecting against both transmission and serious illness or death.
- The efficacy and safety of available vaccines and the benefits of being fully vaccinated.
- The fact that some individuals with certain medical disorders or treatment regimens may not be fully immunized against COVID-19 or its variants despite being vaccinated.
- The right of individuals who, due to a condition or treatment regiment, are still at high risk of serious illness or complications from exposure to COVID-19 may request a reasonable accommodation based on their individualized needs, and how to make such request to the Human Resources Department..
- The right to be free from retaliation for requesting a reasonable accommodation, being authorized for a reasonable accommodation, or requesting PPE or enhanced safety measures in our workplace.

# COVID-19 Prevention Program

An Addendum to the Injury and Illness Program: *In accordance with TITLE 8, DIVISION 1, CHAPTER 4, Subchapter 7. General Industry Safety Orders Section 3205, COVID-19 Prevention*

- The fact that particles containing the virus can travel more than six feet, especially indoors, so physical distancing must be combined with other controls, including face coverings and hand hygiene, to be effective.
- The importance of frequent hand washing with soap and water for at least 20 seconds and using hand sanitizer when employees do not have immediate access to a sink or hand washing facility, and that hand sanitizer does not work if the hands are soiled.
- Proper use of face coverings and the fact that face coverings are not respiratory protective equipment.
- COVID-19 symptoms, and the importance of not coming to work and obtaining a COVID-19 test if the employee has COVID-19 symptoms.

## (6) Physical distancing.

(A) All employees are encouraged to distance indoors, although physical distancing of 6 feet is no longer required.

Methods of physical distancing include:

- Telework or other remote work arrangements, where feasible;
- Reducing the number of persons in an area at one time, including visitors;
- Visual cues such as signs and floor markings to indicate where employees and others should be located or their direction and path of travel;
- Staggered arrival, departure, work, and break times;
- Adjusted work processes or procedures, to allow greater distance between employees.

Insert Policies & Procedures to protect employees in this section ...

## (7) Face coverings.

(A) For all employees who are not fully vaccinated, the District will provide face coverings and ensure that they are worn when indoors or in vehicles.

(B) Employers shall provide face coverings and ensure they are worn by employees when required by orders from the CDPH.

(C) Employers shall ensure that required face coverings are clean and undamaged, and that they are worn over the nose and mouth. Face shields are not a replacement for face coverings, although they may be worn together for additional protection.

(D) When employees are required to wear face coverings under this section or sections 3205.1 through

# COVID-19 Prevention Program

An Addendum to the Injury and Illness Program: *In accordance with TITLE 8, DIVISION 1, CHAPTER 4, Subchapter 7. General Industry Safety Orders Section 3205, COVID-19 Prevention*

3205.4, the following exceptions apply:

1. When an employee is alone in a room or vehicle.
2. While eating or drinking at the workplace, provided employees are at least six feet apart and outside air supply to the area, if indoors, has been maximized to the extent feasible.
3. Employees wearing respirators required by the employer and used in compliance with section 5144.
4. Employees who cannot wear face coverings due to a medical or mental health condition or disability, or who are hearing-impaired or communicating with a hearing-impaired person.
5. Specific tasks which cannot feasibly be performed with a face covering. This exception is limited to the time period in which such tasks are actually being performed.

(E) Employees exempted from wearing face coverings due to a medical condition, mental health condition, or disability shall wear an effective non-restrictive alternative, such as a face shield with a drape on the bottom, if their condition or disability permits it.

(F) Any employee not wearing a face covering, pursuant to the exceptions in subsections (c)(6)(D)4. or 5., and not wearing a non-restrictive alternative when allowed by subsection (c)(6)(E), shall be at least six feet apart from, all other persons unless the unmasked employee is **either fully vaccinated or tested at least weekly for COVID-19 during paid time and at no cost to the employee**. The District may not use the provisions of subsection (c)(6)(F) as an alternative to face coverings when face coverings are otherwise required by this section.

(G) The District will not prevent any employee from wearing a face covering when not required by this section, unless it would create a safety hazard, such as interfering with the safe operation of equipment.

**(H) When face coverings are not required by this section or by sections 3205.1 through 3205.4, employers shall provide face coverings to employees upon request, regardless of vaccination status.**

(I) The District will implement the following measures to communicate to non-employees the face coverings requirements on their premises:

**Insert your district method of notifying non-employees of the requirement for face coverings on premises.**

# COVID-19 Prevention Program

An Addendum to the Injury and Illness Program: *In accordance with TITLE 8, DIVISION 1, CHAPTER 4, Subchapter 7. General Industry Safety Orders Section 3205, COVID-19 Prevention*

(A) The District has developed COVID-19 policies and procedures to minimize employee exposure to COVID-19 hazards originating from any person not wearing a face covering, including a member of the public. The policies include;

Insert your district methods

(8) Other engineering controls, administrative controls, and personal protective equipment.

Insert Policies & Procedures to protect employees in this section ...

## (A) Partitions

During outbreaks, at fixed work locations where it is not possible to maintain the physical distancing requirement at alltimes, the District will install cleanable solid partitions that effectively reduce aerosol transmission between the employee and other persons.

## (B) Maximize Outdoor Air

For buildings with mechanical or natural ventilation, or both, the District will maximize the quantity of outside air provided to the extent feasible, except when the United States Environmental Protection Agency (EPA) Air Quality Index is greater than 100 for any pollutant or if opening windows or letting in outdoor air by other means would cause a hazard to employees, for instance from excessive heat or cold.

## (C) Cleaning and Disinfecting

The District has implemented cleaning and disinfecting procedures, which require:

1. Identifying and regularly cleaning and disinfecting frequently touched surfaces and objects, such as doorknobs, elevator buttons, equipment, tools, handrails, handles, controls, bathroom surfaces, and steering wheels. The District will inform employees and authorized employee representatives of cleaning and disinfection protocols, including the planned frequency and scope of regular cleaning and disinfection.

# COVID-19 Prevention Program

An Addendum to the Injury and Illness Program: *In accordance with TITLE 8, DIVISION 1, CHAPTER 4, Subchapter 7. General Industry Safety Orders Section 3205, COVID-19 Prevention*

2. Prohibiting the sharing of personal protective equipment and to the extent feasible, items that employees come in regular physical contact with such as phones, headsets, desks, keyboards, writing materials, instruments, and tools. When it is not feasible to prevent sharing, sharing shall be minimized and such items and equipment shall be disinfected between uses by different people. Sharing of vehicles shall be minimized to the extent feasible, and high touch points (steering wheel, door handles, seatbelt buckles, armrests, shifter, etc.) shall be disinfected between users.

3. Cleaning and disinfection of areas, material, and equipment used by a COVID-19 case during the high-risk exposure period.

*NOTE: Cleaning and disinfecting must be done in a manner that does not create a hazard to employees. See Group 2 and Group 16 of the General Industry Safety Orders for further information.*

## (D) Handwashing Facilities

To protect employees from COVID-19 hazards, the District will evaluate its handwashing facilities, determine the need for additional facilities, encourage and allow time for employee handwashing, and provide employees with an effective hand sanitizer. Employers shall encourage employees to wash their hands for at least 20 seconds each time. Provision or use of hand sanitizers with methyl alcohol is prohibited.

## (E) Personal protective equipment.

1. The District evaluates the need for personal protective equipment (PPE) to prevent exposure to COVID-19 hazards, such as face coverings and face shields, and provide such personal protective equipment as needed.
2. Upon request, employers shall provide respirators for voluntary use in compliance with subsection 5144(c)(2) to all employees who are not fully vaccinated and who are working indoors or in vehicles with more than one person. Whenever an employer makes respirators for voluntary use available, under this section or sections 3205.1 through 3205.4, the employer shall encourage their use and shall ensure that employees are provided with a respirator of the correct size.
3. The District will provide and ensure use of respirators in compliance with section 5144 when deemed necessary by the Division through the Issuance of Order to Take Special Action, in accordance with title 8 section 332.3.
4. The District will provide and ensure use of eye protection and respiratory protection in compliance with section 5144 when employees are exposed to procedures that may aerosolize potentially infectious material such as saliva or respiratory tract fluids.

*NOTE: Examples of work covered by subsection (c)(7)(D)4. include, but are not limited to, certain dental procedures and outpatient medical specialties not covered by section 5199*

## (9) Reporting, recordkeeping, and access.

1. The District will report information about COVID-19 cases and outbreaks at the workplace to the local health department whenever required by law, and shall provide any related information requested by the local health department. The employer shall report all information to the local health department as required by Labor Code section 6409.6.
2. The District will maintain records of the steps taken to implement the written COVID-19 Prevention Program in accordance with section 3203(b).

## COVID-19 Prevention Program

An Addendum to the Injury and Illness Program: *In accordance with TITLE 8, DIVISION 1, CHAPTER 4, Subchapter 7. General Industry Safety Orders Section 3205, COVID-19 Prevention*

3. The written COVID-19 Prevention Program shall be made available at the workplace to employees, authorized employee representatives, and to representatives of the Division immediately upon request.
  4. The District will keep a record of and track all COVID-19 cases with the employee's name, contact information, occupation, location where the employee worked, the date of the last day at the workplace, and the date of a positive COVID-19 test.
- (B) **Cal/OSHA** The District will report immediately to the Division any COVID-19-related serious illnesses or death, as defined under section 330(h), of an employee occurring in a place of employment or in connection with any employment.

# COVID-19 Prevention Program

An Addendum to the Injury and Illness Program: *In accordance with TITLE 8, DIVISION 1, CHAPTER 4, Subchapter 7. General Industry Safety Orders Section 3205, COVID-19 Prevention*

## (C) Injury & Illness Prevention Program

The District will maintain records of the steps taken to implement the written COVID-19 Prevention Program in accordance with section 3203(b).

## (D) Access to the COVID-19 Prevention Program

The written COVID-19 Prevention Program shall be made available at the workplace to employees, authorized employee representatives, and to representatives of the Division immediately upon request.

## (E) Access to COVID-19 Case Records

The District will keep a record of and track all COVID-19 cases with the employee's name, contact information, occupation, location where the employee worked, the date of the last day at the workplace, and the date of a positive COVID-19 test. Medical information shall be kept confidential in accordance with subsections (c)(3)(C) and (c)(3)(D). The information shall be made available to employees, authorized employee representatives, or as otherwise required by law, with personal identifying information removed.

*Note: Subsection (c)(9)(E) does not alter the right of employees or their representatives to request and obtain an employer's Log of Work-Related Injuries and Illnesses (Log 300), without redaction, or to request and obtain information as otherwise allowed by law.*

## (10) Exclusion of COVID-19 cases.

Insert Policies & Procedures to protect employees in this section ...

The purpose of this section is to limit transmission of COVID-19 in the workplace.

### (A) COVID-19 Cases

The District will ensure that COVID-19 cases are excluded from the workplace until the return to work requirements in section 11 are met.

### (B) COVID-19 Exposure Cases

Employers shall exclude from the workplace employees who had a close contact until the return to work requirements of subsection (c)(10) are met, with the following exceptions:

1. Employees who were fully vaccinated before the close contact and who do not develop COVID-19 symptoms; and
2. COVID-19 cases who returned to work pursuant to subsection (c)(10)(A) or (B) and have remained free of COVID-19 symptoms, for 90 days after the initial onset of COVID-19 symptoms or, for COVID-19 cases who never developed COVID-19 symptoms, for 90 days after the first positive test.

# COVID-19 Prevention Program

An Addendum to the Injury and Illness Program: *In accordance with TITLE 8, DIVISION 1, CHAPTER 4, Subchapter 7. General Industry Safety Orders Section 3205, COVID-19 Prevention*

## (C) Earnings & Benefits while excluded

For employees excluded from work under subsection (c)(9), the District will continue and maintain the employee's earnings, wages, seniority, and all other employee rights and benefits, including the employee's right to their former job status, as if the employee had not been removed from their job.

The District may use employer-provided employee sick leave for this purpose to the extent permitted by law. Wages due under this subsection are subject to existing wage payment obligations and must be paid at the employee's regular rate of pay no later than the regular pay day for the pay period(s) in which the employee is excluded. Unpaid wages owed under this subsection are subject to enforcement through procedures available in existing law. If an employer determines that one of the exceptions below applies, it shall inform the employee of the denial and the applicable exception.

EXCEPTION 1: Subsection (c)(9)(C) does not apply where the employee received disability payments or was covered by workers' compensation and received temporary disability.

EXCEPTION 2: Subsection (c)(9)(C) does not apply where the employer demonstrates that the close contact is not work related.

(D) Subsection (c)(9) does not limit any other applicable law, employer policy, or collective bargaining agreement that provides for greater protections.

## (E) Information on Benefits & Leaves

At the time of exclusion, the District will provide the employee the information on benefits described in subsections (c)(5)(B) and (c)(9)(C).

*EXCEPTION to subsection (c)(10): Employees who have not been excluded or isolated by the local health department need not be excluded by the employer, if they are temporarily reassigned to work where they do not have contact with other persons until the return to work requirements of subsection (c)(11) are met.*

## (11) Return to work criteria.

Insert Policies & Procedures to protect employees in this section ...

(A) COVID-19 cases with COVID-19 symptoms shall not return to work until:

1. At least 24 hours have passed since a fever of 100.4 degrees Fahrenheit or higher has resolved without the use of fever-reducing medications; and
2. COVID-19 symptoms have improved; and
3. At least 10 days have passed since COVID-19 symptoms first appeared.

(B) COVID-19 cases who tested positive but never developed COVID-19 symptoms

Shall not return to work until a minimum of 10 days have passed since the date of specimen collection of their first positive COVID-19 test.

## COVID-19 Prevention Program

An Addendum to the Injury and Illness Program: *In accordance with TITLE 8, DIVISION 1, CHAPTER 4, Subchapter 7. General Industry Safety Orders Section 3205, COVID-19 Prevention*

(C) Once a COVID-19 case has met the requirements of subsection (c)(10)(A) or (B), as applicable, a negative COVID-19 test shall not be required for an employee to return to work.

(D) Persons who had a close contact may return to work as follows:

1. Persons who had a close contact but never developed any COVID-19 symptoms may return to work when 10 days have passed since the last known close contact.

2. Persons who had a close contact and developed any COVID-19 symptom cannot return to work until the requirements of subsection (c)(10)(A) have been met, unless all of the following are true:

a. The person tested negative for COVID-19 using a polymerase chain reaction (PCR) COVID-19 test with specimen taken after the onset of symptoms; and

b. At least 10 days have passed since the last known close contact; and

c. The person has been symptom-free for at least 24 hours, without using fever-reducing medications.

3. During critical staffing shortages, when there are not enough staff to provide safe patient care, essential critical infrastructure workers in the following categories may return after Day 7 from the date of last exposure if they have received a negative PCR COVID-19 test result from a specimen collected after Day 5:

a. Health care workers who did not develop COVID-19 symptoms;

b. Emergency response workers who did not develop COVID-19 symptoms; and

c. Social service workers who did not develop COVID-19 symptoms and who work face to face with clients in child welfare or assisted living.

(E) If an order to isolate, quarantine, or exclude an employee is issued by a local or state health official, the employee shall not return to work until the period of isolation or quarantine is completed or the order is lifted. If no period was specified, then the period shall be in accordance with the return to work periods in subsection (c)(10)(A), (c)(10)(B), or (c)(10)(D), as applicable.

### F. Division approval of return to work

If there are no violations of local or state health officer orders for isolation or quarantine, the Division may, upon request, allow employees to return to work on the basis that the removal of an employee would create undue risk to a community's health and safety. In such cases, the District will develop, implement, and maintain effective control measures to prevent transmission in the workplace including providing isolation for the employee at the workplace and, if isolation is not possible, the use of respiratory protection in the workplace.

*Note: Authority cited: Section 142.3, Labor Code. Reference: Sections 142.3 and 144.6, Labor Code.*

# COVID-19 Prevention Program

An Addendum to the Injury and Illness Program: *In accordance with TITLE 8, DIVISION 1, CHAPTER 4, Subchapter 7. General Industry Safety Orders Section 3205, COVID-19 Prevention*

## § 3205.1. Multiple COVID-19 Infections and COVID-19 Outbreaks.

(a) Scope.

(1) This section applies to a workplace covered by section 3205 if three or more employee COVID-19 cases within an exposed group, as defined by section 3205(b), visited the workplace during their high-risk exposure period at any time during a 14-day period.

(2) This section shall apply until there are no new employee COVID-19 cases detected in the exposed group for a 14-day period.

(b) COVID-19 testing.

(1) The District will make COVID-19 testing available at no cost to its employees within the exposed group, during employees' paid time, except:

(A) Employees who were not present at the workplace during the relevant 14-day period(s) under subsection (a).

(B) Employees who were fully vaccinated before section 3205.1 became applicable to the workplace and who do not have COVID-19 symptoms.

(C) For COVID-19 cases who did not develop COVID-19 symptoms after returning to work pursuant to subsections 3205(c)(10)(A) or (B), no testing is required for 90 days after the initial onset of COVID-19 symptoms or, for COVID-19 cases who never developed symptoms, 90 days after the first positive test.

(2) COVID-19 testing shall consist of the following:

(A) Immediately upon being covered by this section, testing will be made available to all employees in the exposed group and then again one week later. Negative COVID-19 test results of employees with COVID-19 exposure shall not impact the duration of any quarantine, isolation, or exclusion period required by, or orders issued by, the local health department.

(B) After the first two COVID-19 tests required by (b)(2)(A), The District will make COVID-19 testing available once a week at no cost, during paid time, to all employees in the exposed group who remain at the workplace, or more frequently if recommended by the local health department, until this section no longer applies pursuant to subsection (a)(2).

(c) District will make additional testing available at no cost to employees, during employees' paid time when deemed necessary by the Division through the Issuance of Order to Take Special Action, in accordance with title 8, section 332.3.

(d) The employer shall continue to comply with all applicable provisions of section 3205, and shall also do the following:

(1) Employees in the exposed group shall wear face coverings when indoors, or when outdoors and less than six feet from another person, unless one of the exceptions in subsection 3205(c)(6)(D) applies.

(2) Employers shall give notice to employees in the exposed group of their right to request a respirator for voluntary use under subsection 3205(c)(7)(D)2., if they are not fully vaccinated.

(3) Employers shall evaluate whether to implement physical distancing of at least six feet between persons or, where six feet of physical distancing is not feasible, the use of cleanable solid partitions of sufficient size to reduce COVID-19 transmission.

(e) COVID-19 Investigation, review and hazard correction.

The District will immediately perform a review of potentially relevant COVID-19 policies, procedures, and controls and implement changes as needed to prevent further spread of COVID-19. The investigation and review shall be documented and include:

(1) Investigation of new or unabated COVID-19 hazards including the employer's leave policies and practices and whether employees are discouraged from remaining home when sick; the employer's

## COVID-19 Prevention Program

An Addendum to the Injury and Illness Program: *In accordance with TITLE 8, DIVISION 1, CHAPTER 4, Subchapter 7. General Industry Safety Orders Section 3205, COVID-19 Prevention*

COVID-19 testing policies; insufficient outdoor air; insufficient air filtration; and lack of physical distancing.

(2) The review shall be updated every thirty days that this section continues to apply, in response to new information or to new or previously unrecognized COVID-19 hazards, or when otherwise necessary.

(3) The District will implement changes to reduce the transmission of COVID-19 based on the investigation and review required by subsections (e)(1) and (e)(2). The District will consider moving indoor tasks outdoors or having them performed remotely, increasing outdoor air supply when work is done indoors, improving air filtration, increasing physical distancing as much as feasible, requiring respiratory protection in compliance with section 5144, and other applicable controls.

- (f) In buildings or structures with mechanical ventilation, employers shall filter recirculated air with Minimum Efficiency Reporting Value (MERV) 13 or higher efficiency filters if compatible with the ventilation system. If MERV-13 or higher filters are not compatible with the ventilation system, employers shall use filters with the highest compatible filtering efficiency. Employers shall also evaluate whether portable or mounted High Efficiency Particulate Air (HEPA) filtration units or other air cleaning systems would reduce the risk of transmission and, if so, shall implement their use to the degree feasible.

*Note: Authority cited: Section 142.3, Labor Code. Reference: Sections 142.3 and 144.6, Labor Code.*

# COVID-19 Prevention Program

An Addendum to the Injury and Illness Program: *In accordance with TITLE 8, DIVISION 1, CHAPTER 4, Subchapter 7. General Industry Safety Orders Section 3205, COVID-19 Prevention*

## § 3205.2. Major COVID-19 Outbreaks.

(a) Scope.

(1) This section applies to any workplace covered by section 3205 if 20 or more employee COVID-19 cases in an exposed group, as defined by section 3205(b), visited the workplace during their high-risk exposure period within a 30-day period.

(2) This section shall apply until there are fewer than three COVID-19 cases detected in the exposed group for a 14-day period.

(b) COVID-19 testing.

Employers shall continue to comply with section 3205.1, except that the COVID-19 testing described in section 3205.1(b) shall be made available to all employees in the exposed group, regardless of vaccination status, twice a week, or more frequently if recommended by the local health department.

(c) Respirators and partitions

In addition to the requirements of sections 3205 and 3205.1, the District will take the following actions:

(1) The employer shall provide a respirator for voluntary use in compliance with subsection 5144(c)(2) to employees in the exposed group and shall determine the need for a respiratory protection program or changes to an existing respiratory protection program under section 5144 to address COVID-19 hazards.

(2) Any employees in the exposed group who are not wearing respirators required by the employer and used in compliance with section 5144 shall be separated from other persons by at least six feet, except where an employer can demonstrate that six feet of separation is not feasible, and except for momentary exposure while persons are in movement. Methods of physical distancing include: telework or other remote work arrangements; reducing the number of persons in an area at one time, including visitors; visual cues such as signs and floor markings to indicate where employees and others should be located or their direction and path of travel; staggered arrival, departure, work, and break times; and adjusted work processes or procedures, such as reducing production speed, to allow greater distance between employees. When it is not feasible to maintain a distance of at least six feet, individuals shall be as far apart as feasible.

(3) At work stations where an employee in the exposed group is assigned to work for an extended period of time, such as cash registers, desks, and production line stations, and where the physical distancing requirement in subsection (c)(2) is not maintained at all times, the employer shall install cleanable solid partitions that effectively reduce transmission between the employee and other persons.

(4) The District will evaluate whether to halt some or all operations at the workplace until COVID-19 hazards have been corrected.

(5) Any other control measures deemed necessary by the Division through the Issuance of Order to Take Special Action, in accordance with title 8 section 332.3.

*Note: Authority cited: Section 142.3, Labor Code. Reference: Sections 142.3 and 144.6, Labor Code.*

## COVID-19 testing.

Insert District testing procedures here

(1) The District will provide COVID-19 testing to all employees at the exposed workplace except for employees who were not present during the period of an outbreak identified by a local health department or the relevant 14-day period(s) under subsection (a), as applicable. COVID-19 testing shall be provided at no cost to employees during employees' working hours.

(2) COVID-19 testing shall consist of the following:

(A) Immediately upon being covered by this section, all employees in the exposed workplace shall be tested and then tested again one week later. Negative COVID-19 test results of employees with COVID-19 exposure shall not impact the duration of any quarantine period required by, or orders issued by, the local health department.

(B) After the first two COVID-19 tests required by (b)(2)(A), The District will provide continuous COVID-19 testing of employees who remain at the workplace at least once per week, or more frequently if recommended by the local health department, until this section no longer applies pursuant to subsection (a)(2).

(C) District will provide additional testing when deemed necessary by the Division through the Issuance of Order to Take Special Action, in accordance with title 8 section 332.3.

### (a) Exclusion of COVID-19 cases.

The District will ensure COVID-19 cases and employees who had COVID-19 exposure are excluded from the workplace in accordance with our COVID-19 Prevention Program and local health officer orders if applicable.

An Addendum to the Injury and Illness Program: *In accordance with TITLE 8, DIVISION 1, CHAPTER 4, Subchapter 7. General Industry Safety Orders Section 3205, COVID-19 Prevention*

### (b) Investigation of workplace COVID-19 illness.

The District will immediately investigate and determine possible workplace related factors that contributed to the COVID-19 outbreak in accordance with our COVID-19 Prevention Program.

### (c) COVID-19 Investigation, review and hazard correction.

In addition to the requirements of our COVID-19 Prevention Program the District will immediately perform a review of potentially relevant COVID-19 policies, procedures, and controls and implement changes as needed to prevent further spread of COVID-19. The investigation and review shall be documented and include:

- (1) Investigation of new or unabated COVID-19 hazards including the employer's leave policies and practices and whether employees are discouraged from remaining home when sick; the employer's COVID-19 testing policies; insufficient outdoor air; insufficient air filtration; and lack of physical distancing.
- (2) The review shall be updated every thirty days that the outbreak continues, in response to new information or to new or previously unrecognized COVID-19 hazards, or when otherwise necessary.
- (3) The District will implement changes to reduce the transmission of COVID-19 based on the investigation and review required by our COVID-19 Prevention Program. The District will consider moving indoor tasks outdoors or having them performed remotely, increasing outdoor air supply when work is done indoors, improving air filtration, increasing physical distancing as much as possible, respiratory protection, and other applicable controls.

### (d) Notifications to the local health department.

- (1) The District will contact the local health department immediately but no longer than 48 hours after the employer knows, or with diligent inquiry would have known, of three or more COVID-19 cases for guidance on preventing the further spread of COVID-19 within the workplace.
- (2) The District will provide to the local health department the total number of COVID-19 cases and for each COVID-19 case, the name, contact information, occupation, workplace location, business address, the hospitalization and/or fatality status, and North American Industry Classification System code of the workplace of the COVID-19 case, and any other information requested by the local health department. The District will continue to give notice to the local health department of any subsequent COVID-19 cases at the workplace.
- (3) Effective January 1, 2021, the District will provide all information to the local health department required by Labor Code section 6409.6.

*Note: Authority cited: Section 142.3, Labor Code. Reference: Sections 142.3 and 144.6, Labor Code.*

## COVID-19 Prevention Program

An Addendum to the Injury and Illness Program: *In accordance with TITLE 8, DIVISION 1, CHAPTER 4, Subchapter 7. General Industry Safety Orders Section 3205, COVID-19 Prevention*

### § 3205.2. Major COVID-19 Outbreaks.

#### (a) Scope.

(1) This section applies to any workplace covered by section 3205 if 20 or more employee COVID-19 cases in an exposed group, as defined by section 3205(b), visited the workplace during their high-risk exposure period within a 30-day period.

(2) This section shall apply until there are fewer than three COVID-19 cases detected in the exposed group for a 14-day period.

#### (b) COVID-19 testing.

Employers shall continue to comply with section 3205.1, except that the COVID-19 testing described in section 3205.1(b) shall be made available to all employees in the exposed group, regardless of vaccination status, twice a week, or more frequently if recommended by the local health department.

#### (c) Respirators and partitions

In addition to the requirements of sections 3205 and 3205.1, the District will take the following actions:

(1) The employer shall provide a respirator for voluntary use in compliance with subsection 5144(c)(2) to employees in the exposed group and shall determine the need for a respiratory protection program or changes to an existing respiratory protection program under section 5144 to address COVID-19 hazards.

(2) Any employees in the exposed group who are not wearing respirators required by the employer and used in compliance with section 5144 shall be separated from other persons by at least six feet, except where an employer can demonstrate that six feet of separation is not feasible, and except for momentary exposure while persons are in movement. Methods of physical distancing include: telework or other remote work arrangements; reducing the number of persons in an area at one time, including visitors; visual cues such as signs and floor markings to indicate where employees and others should be located or their direction and path of travel; staggered arrival, departure, work, and break times; and adjusted work processes or procedures, such as reducing production speed, to allow greater distance between employees. When it is not feasible to maintain a distance of at least six feet, individuals shall be as far apart as feasible.

(4) At work stations where an employee in the exposed group is assigned to work for an extended period of time, such as cash registers, desks, and production line stations, and where the physical distancing requirement in subsection (c)(2) is not maintained at all times, the employer shall install cleanable solid partitions that effectively reduce transmission between the employee and other persons.

(5) The District will evaluate whether to halt some or all operations at the workplace until COVID-19 hazards have been corrected.

(6) Any other control measures deemed necessary by the Division through the Issuance of Order to Take Special Action, in accordance with title 8 section 332.3.

*Note: Authority cited: Section 142.3, Labor Code. Reference: Sections 142.3 and 144.6, Labor Code.*

# COVID-19 Prevention Program

An Addendum to the Injury and Illness Program: *In accordance with TITLE 8, DIVISION 1, CHAPTER 4, Subchapter 7. General Industry Safety Orders Section 3205, COVID-19 Prevention*

# COVID-19 Prevention Program

An Addendum to the Injury and Illness Program: *In accordance with TITLE 8, DIVISION 1, CHAPTER 4, Subchapter 7. General Industry Safety Orders Section 3205, COVID-19 Prevention*

## Appendix B: Cal/OSHA Regulations

### Subchapter 7. General Industry Safety Orders § 3205. COVID-19 Prevention.

#### (a) Scope.

(1) This section applies to all employees and places of employment, with the following exceptions:

(A) Places of employment with one employee who does not have contact with other persons.

(B) Employees working from home.

(C) Employees when covered by section 5199.

(2) Nothing in this section is intended to limit more protective or stringent state or local health department mandates or guidance.

(b) Definitions. The following definitions apply to this section and to sections 3205.1 through 3205.4.

“COVID-19” means coronavirus disease, an infectious disease caused by the severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2).

“COVID-19 case” means a person who:

(1) Has a positive “COVID-19 test” as defined in this section;

(2) Is subject to COVID-19-related order to isolate issued by a local or state health official; or

(3) Has died due to COVID-19, in the determination of a local health department or per inclusion in the COVID-19 statistics of a county.

A person is no longer a “COVID-19 case” in this section when a licensed health care professional determines that the person does not have COVID-19, in accordance with recommendations made by the California Department of Public Health (CDPH) or the local health department pursuant to authority granted under the Health and Safety Code or title 17, California Code of Regulations to CDPH or the local health department.

“COVID-19 exposure” means being within six feet of a COVID-19 case for a cumulative total of 15 minutes or greater in any 24-hour period within or overlapping with the “high-risk exposure period” defined by this section. This definition applies regardless of the use of face coverings.

“COVID-19 hazard” means exposure to potentially infectious material that may contain SARS-CoV-2, the virus that causes COVID-19. Potentially infectious materials include airborne droplets, small particle aerosols, and airborne droplet nuclei, which most commonly result from a person or persons exhaling, talking or vocalizing, coughing, sneezing, or procedures performed on persons which may aerosolize saliva or respiratory tract fluids, among other things. This also includes objects or surfaces that may be contaminated with SARS-CoV-2.

“COVID-19 symptoms” means fever of 100.4 degrees Fahrenheit or higher, chills, cough, shortness of breath or difficulty breathing, fatigue, muscle or body aches, headache, new loss of taste or smell, sore throat, congestion or runny nose, nausea or vomiting, or diarrhea, unless a licensed health care

## COVID-19 Prevention Program

An Addendum to the Injury and Illness Program: *In accordance with TITLE 8, DIVISION 1, CHAPTER 4, Subchapter 7. General Industry Safety Orders Section 3205, COVID-19 Prevention*

professional determines the person's symptoms were caused by a known condition other than COVID-19.

"COVID-19 test" means a viral test for SARS-CoV-2 that is:

- (1) Approved by the United States Food and Drug Administration (FDA) or has an Emergency Use Authorization from the FDA to diagnose current infection with the SARS-CoV-2 virus; and
- (2) Administered in accordance with the FDA approval or the FDA Emergency Use Authorization as applicable.

"Exposed workplace" means any work location, working area, or common area at work used or accessed by a COVID-19 case during the high-risk period, including bathrooms, walkways, hallways, aisles, break or eating areas, and waiting areas. The exposed workplace does not include buildings or facilities not entered by a COVID-19 case.

Effective January 1, 2021, the "exposed workplace" also includes but is not limited to the "worksite" of the COVID-19 case as defined by Labor Code section 6409.6(d)(5).

"Face covering" means a tightly woven fabric or non-woven material with no visible holes or openings, which covers the nose and mouth.

"High-risk exposure period" means the following time period:

- (1) For persons who develop COVID-19 symptoms: from two days before they first develop symptoms until 10 days after symptoms first appeared, and 24 hours have passed with no fever, without the use of fever-reducing medications, and symptoms have improved; or
  - (2) For persons who test positive who never develop COVID-19 symptoms: from two days before until ten days after the specimen for their first positive test for COVID-19 was collected.
- (c) Written COVID-19 Prevention Program. Employers shall establish, implement, and maintain an effective, written COVID-19 Prevention Program, which may be integrated into the employer's Injury and Illness Program required by section 3203, or be maintained in a separate document. The written elements of a COVID-19 Prevention Program shall include:

(1) System for communicating. The employer shall do all of the following in a form readily understandable by employees:

(A) Ask employees to report to the employer, without fear of reprisal, COVID-19 symptoms, possible COVID-19 exposures, and possible COVID-19 hazards at the workplace.

(B) Describe procedures or policies for accommodating employees with medical or other conditions that put them at increased risk of severe COVID-19 illness.

(C) Provide information about access to COVID-19 testing. If testing is required under this section, section 3205.1, or section 3205.2, the employer shall inform affected employees of the reason for the COVID-19 testing and the possible consequences of a positive test.

## COVID-19 Prevention Program

An Addendum to the Injury and Illness Program: *In accordance with TITLE 8, DIVISION 1, CHAPTER 4, Subchapter 7. General Industry Safety Orders Section 3205, COVID-19 Prevention*

(D) In accordance with subsection (c)(3)(B)3., communicate information about COVID-19 hazards and the employer's COVID-19 policies and procedures to employees and to other employers, persons, and entities within or in contact with the employer's workplace.

*NOTE: See subsections (c)(3)(C) and (c)(3)(D) for confidentiality requirements for COVID-19 cases.*

(2) Identification and evaluation of COVID-19 hazards.

(A) The employer shall allow for employee and authorized employee representative participation in the identification and evaluation of COVID-19 hazards.

(B) The employer shall develop and implement a process for screening employees for and responding to employees with COVID-19 symptoms. The employer may ask employees to evaluate their own symptoms before reporting to work. If the employer conducts screening at the workplace, the employer shall ensure that face coverings are used during screening by both screeners and employees and, if temperatures are measured, that non-contact thermometers are used.

(C) The employer shall develop COVID-19 policies and procedures to respond effectively and immediately to individuals at the workplace who are a COVID-19 case to prevent or reduce the risk of transmission of COVID-19 in the workplace.

(D) The employer shall conduct a workplace-specific identification of all interactions, areas, activities, processes, equipment, and materials that could potentially expose employees to COVID-19 hazards. Employers shall treat all persons, regardless of symptoms or negative COVID-19 test results, as potentially infectious.

1. This shall include identification of places and times when people may congregate or come in contact with one another, regardless of whether employees are performing an assigned work task or not, for instance during meetings or trainings and including in and around entrances, bathrooms, hallways, aisles, walkways, elevators, break or eating areas, cool-down areas, and waiting areas.

2. This shall include an evaluation of employees' potential workplace exposure to all persons at the workplace or who may enter the workplace, including coworkers, employees of other entities, members of the public, customers or clients, and independent contractors. Employers shall consider how employees and other persons enter, leave, and travel through the workplace, in addition to addressing fixed work locations.

(E) For indoor locations, the employer shall evaluate how to maximize the quantity of outdoor air and whether it is possible to increase filtration efficiency to the highest level compatible with the existing ventilation system.

(F) The employer shall review applicable orders and guidance from the State of California and the local health department related to COVID-19 hazards and prevention, including information of general application and information specific to the employer's industry, location, and operations.

(G) The employer shall evaluate existing COVID-19 prevention controls at the workplace and the need for different or additional controls. This includes evaluation of controls in subsections (c)(4), and (c)(6) through (c)(8).

## COVID-19 Prevention Program

An Addendum to the Injury and Illness Program: *In accordance with TITLE 8, DIVISION 1, CHAPTER 4, Subchapter 7. General Industry Safety Orders Section 3205, COVID-19 Prevention*

(H) The employer shall conduct periodic inspections as needed to identify unhealthy conditions, work practices, and work procedures related to COVID-19 and to ensure compliance with employers' COVID-19 policies and procedures.

(3) Investigating and responding to COVID-19 cases in the workplace.

(A) Employers shall have an effective procedure to investigate COVID-19 cases in the workplace. This includes procedures for verifying COVID-19 case status, receiving information regarding COVID-19 test results and onset of COVID-19 symptoms, and identifying and recording COVID-19 cases.

(B) The employer shall take the following actions when there has been a COVID-19 case at the place of employment:

1. Determine the day and time the COVID-19 case was last present and, to the extent possible, the date of the positive COVID-19 test(s) and/or diagnosis, and the date the COVID-19 case first had one or more COVID-19 symptoms, if any were experienced.

2. Determine who may have had a COVID-19 exposure. This requires an evaluation of the activities of the COVID-19 case and all locations at the workplace which may have been visited by the COVID-19 case during the high-risk exposure period.

*Note: See subsection (c)(10) for exclusion requirements for employees with COVID19 exposure.*

3. Give notice of the potential COVID-19 exposure, within one business day, in a way that does not reveal any personal identifying information of the COVID-19 case, to the following:

a. All employees who may have had COVID-19 exposure and their authorized representatives.

b. Independent contractors and other employers present at the workplace during the high-risk exposure period.

4. Offer COVID-19 testing at no cost to employees during their working hours to all employees who had potential COVID-19 exposure in the workplace and provide them with the information on benefits described in subsections (c)(5)(B) and (c)(10)(C).

5. Investigate whether any workplace conditions could have contributed to the risk of COVID-19 exposure and what could be done to reduce exposure to COVID-19 hazards.

(C) Personal identifying information of COVID-19 cases or persons with COVID-19 symptoms shall be kept confidential. All COVID-19 testing or related medical services provided by the employer under this section and sections 3205.1 through 3205.4 shall be provided in a manner that ensures the confidentiality of employees.

EXCEPTION to subsection (c)(3)(C): Unredacted information on COVID-19 cases shall be provided to the local health department, CDPH, the Division, the National Institute for Occupational Safety and Health (NIOSH), or as otherwise required by law immediately upon request.

(D) The employer shall ensure that all employee medical records required by this section and sections 3205.1 through 3205.4 are kept confidential and are not disclosed or reported without the employee's express written consent to any person within or outside the workplace.

## COVID-19 Prevention Program

An Addendum to the Injury and Illness Program: *In accordance with TITLE 8, DIVISION 1, CHAPTER 4, Subchapter 7. General Industry Safety Orders Section 3205, COVID-19 Prevention*

EXCEPTION 1 to subsection (c)(3)(D): Unredacted medical records shall be provided to the local health department, CDPH, the Division, NIOSH, or as otherwise required by law immediately upon request.

EXCEPTION 2 to subsection (c)(3)(D): This provision does not apply to records that do not contain individually identifiable medical information or from which individually identifiable medical information has been removed.

(4) Correction of COVID-19 hazards. Employers shall implement effective policies and/or procedures for correcting unsafe or unhealthy conditions, work practices, policies and procedures in a timely manner based on the severity of the hazard. This includes, but is not limited to, implementing controls and/or policies and procedures in response to the evaluations conducted under subsections (c)(2) and (c)(3) and implementing the controls required by subsection (c)(6) through (c)(8).

(5) Training and instruction. The employer shall provide effective training and instruction to employees that includes the following:

(A) The employer's COVID-19 policies and procedures to protect employees from COVID-19 hazards.

(B) Information regarding COVID-19-related benefits to which the employee may be entitled under applicable federal, state, or local laws. This includes any benefits available under workers' compensation law, the federal Families First Coronavirus Response Act, Labor Code sections 248.1 and 248.5, Labor Code sections 3212.86 through 3212.88, local governmental requirements, the employer's own leave policies, and leave guaranteed by contract.

(C) The fact that COVID-19 is an infectious disease that can be spread through the air when an infectious person talks or vocalizes, sneezes, coughs, or exhales; that COVID-19 may be transmitted when a person touches a contaminated object and then touches their eyes, nose, or mouth, although that is less common; and that an infectious person may have no symptoms.

(D) Methods of physical distancing of at least six feet and the importance of combining physical distancing with the wearing of face coverings.

(E) The fact that particles containing the virus can travel more than six feet, especially indoors, so physical distancing must be combined with other controls, including face coverings and hand hygiene, to be effective.

(F) The importance of frequent hand washing with soap and water for at least 20 seconds and using hand sanitizer when employees do not have immediate access to a sink or hand washing facility, and that hand sanitizer does not work if the hands are soiled.

(G) Proper use of face coverings and the fact that face coverings are not respiratory protective equipment.

(H) COVID-19 symptoms, and the importance of not coming to work and obtaining a COVID-19 test if the employee has COVID-19 symptoms.

(6) Physical distancing.

(A) All employees shall be separated from other persons by at least six feet, except where an employer can demonstrate that six feet of separation is not possible, and except for momentary exposure while

## COVID-19 Prevention Program

An Addendum to the Injury and Illness Program: *In accordance with TITLE 8, DIVISION 1, CHAPTER 4, Subchapter 7. General Industry Safety Orders Section 3205, COVID-19 Prevention*

persons are in movement. Methods of physical distancing include: telework or other remote work arrangements; reducing the number of persons in an area at one time, including visitors; visual cues such as signs and floor markings to indicate where employees and others should be located or their direction and path of travel; staggered arrival, departure, work, and break times; and adjusted work processes or procedures, such as reducing production speed, to allow greater distance between employees.

(B) When it is not possible to maintain a distance of at least six feet, individuals shall be as far apart as possible.

(7) Face coverings.

(A) Employers shall provide face coverings and ensure they are worn by employees over the nose and mouth when indoors, when outdoors and less than six feet away from another person, and where required by orders from the CDPH or local health department. Employers shall ensure face coverings are clean and undamaged. Face shields are not a replacement for face coverings, although they may be worn together for additional protection. The following are exceptions to the face coverings requirement:

1. When an employee is alone in a room.
2. While eating and drinking at the workplace, provided employees are at least six feet apart and outside air supply to the area, if indoors, has been maximized to the extent possible.
3. Employees wearing respiratory protection in accordance with section 5144 or other title 8 safety orders.
4. Employees who cannot wear face coverings due to a medical or mental health condition or disability, or who are hearing-impaired or communicating with a hearing-impaired person.
5. Specific tasks which cannot feasibly be performed with a face covering. This exception is limited to the time period in which such tasks are actually being performed, and the unmasked employee shall be at least six feet away from all other persons unless unmasked employees are tested at least twice weekly for COVID-19.

*NOTE: CDPH has issued guidance for employers that identifies examples when wearing a face covering is likely not feasible.*

(B) Employees exempted from wearing face coverings due to a medical condition, mental health condition, or disability shall wear an effective non-restrictive alternative, such as a face shield with a drape on the bottom, if their condition or disability permits it.

(C) Any employee not wearing a face covering, face shield with a drape or other effective alternative, or respiratory protection, for any reason, shall be at least six feet apart from all other persons unless the unmasked employee is tested at least twice weekly for COVID-19. Employers may not use COVID-19 testing as an alternative to face coverings when face coverings are otherwise required by this section.

(D) No employer shall prevent any employee from wearing a face covering when not required by this section, unless it would create a safety hazard, such as interfering with the safe operation of equipment.

## COVID-19 Prevention Program

An Addendum to the Injury and Illness Program: *In accordance with TITLE 8, DIVISION 1, CHAPTER 4, Subchapter 7. General Industry Safety Orders Section 3205, COVID-19 Prevention*

(E) Employers shall implement measures to communicate to non-employees the face coverings requirements on their premises.

(F) The employer shall develop COVID-19 policies and procedures to minimize employee exposure to COVID-19 hazards originating from any person not wearing a face covering, including a member of the public.

(8) Other engineering controls, administrative controls, and personal protective equipment.

(A) At fixed work locations where it is not possible to maintain the physical distancing requirement at all times, the employer shall install cleanable solid partitions that effectively reduce aerosol transmission between the employee and other persons.

(B) For buildings with mechanical or natural ventilation, or both, employers shall maximize the quantity of outside air provided to the extent feasible, except when the United States Environmental Protection Agency (EPA) Air Quality Index is greater than 100 for any pollutant or if opening windows or letting in outdoor air by other means would cause a hazard to employees, for instance from excessive heat or cold.

(C) Employers shall implement cleaning and disinfecting procedures, which require:

1. Identifying and regularly cleaning and disinfecting frequently touched surfaces and objects, such as doorknobs, elevator buttons, equipment, tools, handrails, handles, controls, bathroom surfaces, and steering wheels. The employer shall inform employees and authorized employee representatives of cleaning and disinfection protocols, including the planned frequency and scope of regular cleaning and disinfection.

2. Prohibiting the sharing of personal protective equipment and to the extent feasible, items that employees come in regular physical contact with such as phones, headsets, desks, keyboards, writing materials, instruments, and tools. When it is not feasible to prevent sharing, sharing shall be minimized and such items and equipment shall be disinfected between uses by different people. Sharing of vehicles shall be minimized to the extent feasible, and high touch points (steering wheel, door handles, seatbelt buckles, armrests, shifter, etc.) shall be disinfected between users.

3. Cleaning and disinfection of areas, material, and equipment used by a COVID-19 case during the high-risk exposure period.

*NOTE: Cleaning and disinfecting must be done in a manner that does not create a hazard to employees. See Group 2 and Group 16 of the General Industry Safety Orders for further information.*

(D) To protect employees from COVID-19 hazards, the employer shall evaluate its handwashing facilities, determine the need for additional facilities, encourage and allow time for employee handwashing, and provide employees with an effective hand sanitizer. Employers shall encourage employees to wash their hands for at least 20 seconds each time. Provision or use of hand sanitizers with methyl alcohol is prohibited.

(E) Personal protective equipment.

## COVID-19 Prevention Program

An Addendum to the Injury and Illness Program: *In accordance with TITLE 8, DIVISION 1, CHAPTER 4, Subchapter 7. General Industry Safety Orders Section 3205, COVID-19 Prevention*

1. Employers shall evaluate the need for personal protective equipment to prevent exposure to COVID-19 hazards, such as gloves, goggles, and face shields, and provide such personal protective equipment as needed.
2. Employers shall evaluate the need for respiratory protection in accordance with section 5144 when the physical distancing requirements in subsection (c)(6) are not feasible or are not maintained.
3. Employers shall provide and ensure use of respirators in accordance with section 5144 when deemed necessary by the Division through the Issuance of Order to Take Special Action, in accordance with title 8 section 332.3.
4. Employers shall provide and ensure use of eye protection and respiratory protection in accordance with section 5144 when employees are exposed to procedures that may aerosolize potentially infectious material such as saliva or respiratory tract fluids.

*NOTE: Examples of work covered by subsection (c)(8)(E)4. include, but are not limited to, certain dental procedures and outpatient medical specialties not covered by section 5199.*

(9) Reporting, recordkeeping, and access.

(A) The employer shall report information about COVID-19 cases at the workplace to the local health department whenever required by law, and shall provide any related information requested by the local health department.

(B) The employer shall report immediately to the Division any COVID-19-related serious illnesses or death, as defined under section 330(h), of an employee occurring in a place of employment or in connection with any employment.

(C) The employer shall maintain records of the steps taken to implement the written COVID-19 Prevention Program in accordance with section 3203(b).

(D) The written COVID-19 Prevention Program shall be made available at the workplace to employees, authorized employee representatives, and to representatives of the Division immediately upon request.

(E) The employer shall keep a record of and track all COVID-19 cases with the employee's name, contact information, occupation, location where the employee worked, the date of the last day at the workplace, and the date of a positive COVID-19 test. Medical information shall be kept confidential in accordance with subsections (c)(3)(C) and (c)(3)(D). The information shall be made available to employees, authorized employee representatives, or as otherwise required by law, with personal identifying information removed.

Note: Subsection (c)(9)(E) does not alter the right of employees or their representatives to request and obtain an employer's Log of Work-Related Injuries and Illnesses (Log 300), without redaction, or to request and obtain information as otherwise allowed by law.

(10) Exclusion of COVID-19 cases. The purpose of this subsection is to limit transmission of COVID-19 in the workplace.

(A) Employers shall ensure that COVID-19 cases are excluded from the workplace until the return to work requirements of subsection (c)(11) are met.

## COVID-19 Prevention Program

An Addendum to the Injury and Illness Program: *In accordance with TITLE 8, DIVISION 1, CHAPTER 4, Subchapter 7. General Industry Safety Orders Section 3205, COVID-19 Prevention*

(B) Employers shall exclude employees with COVID-19 exposure from the workplace for 14 days after the last known COVID-19 exposure to a COVID-19 case.

(C) For employees excluded from work under subsection (c)(10) and otherwise able and available to work, employers shall continue and maintain an employee's earnings, seniority, and all other employee rights and benefits, including the employee's right to their former job status, as if the employee had not been removed from their job.

Employers may use employer-provided employee sick leave benefits for this purpose and consider benefit payments from public sources in determining how to maintain earnings, rights and benefits, where permitted by law and when not covered by workers' compensation.

EXCEPTION 1: Subsection (c)(10)(C) does not apply to any period of time during which the employee is unable to work for reasons other than protecting persons at the workplace from possible COVID-19 transmission.

EXCEPTION 2: Subsection (c)(10)(C) does not apply where the employer demonstrates that the COVID-19 exposure is not work related.

(D) Subsection (c)(10) does not limit any other applicable law, employer policy, or collective bargaining agreement that provides for greater protections.

(E) At the time of exclusion, the employer shall provide the employee the information on benefits described in subsections (c)(5)(B) and (c)(10)(C).

EXCEPTION to subsection (c)(10): Employees who have not been excluded or isolated by the local health department need not be excluded by the employer, if they are temporarily reassigned to work where they do not have contact with other persons until the return to work requirements of subsection (c)(11) are met.

(11) Return to work criteria.

(A) COVID-19 cases with COVID-19 symptoms shall not return to work until:

1. At least 24 hours have passed since a fever of 100.4 or higher has resolved without the use of fever-reducing medications;
2. COVID-19 symptoms have improved; and
3. At least 10 days have passed since COVID-19 symptoms first appeared.

(B) COVID-19 cases who tested positive but never developed COVID-19 symptoms shall not return to work until a minimum of 10 days have passed since the date of specimen collection of their first positive COVID-19 test.

(C) A negative COVID-19 test shall not be required for an employee to return to work.

(D) If an order to isolate or quarantine an employee is issued by a local or state health official, the employee shall not return to work until the period of isolation or quarantine is completed or the order is lifted. If no period was specified, then the period shall be 10 days from the time the order to isolate was effective, or 14 days from the time the order to quarantine was effective.

## COVID-19 Prevention Program

An Addendum to the Injury and Illness Program: *In accordance with TITLE 8, DIVISION 1, CHAPTER 4, Subchapter 7. General Industry Safety Orders Section 3205, COVID-19 Prevention*

(E) If there are no violations of local or state health officer orders for isolation or quarantine, the Division may, upon request, allow employees to return to work on the basis that the removal of an employee would create undue risk to a community's health and safety. In such cases, the employer shall develop, implement, and maintain effective control measures to prevent transmission in the workplace including providing isolation for the employee at the workplace and, if isolation is not possible, the use of respiratory protection in the workplace.

# COVID-19 Prevention Program

An Addendum to the Injury and Illness Program: *In accordance with TITLE 8, DIVISION 1, CHAPTER 4, Subchapter 7. General Industry Safety Orders Section 3205, COVID-19 Prevention*

## § 3205.1. Multiple COVID-19 Infections and COVID-19 Outbreaks.

### (a) Scope.

(1) This section applies to a place of employment covered by section 3205 if it has been identified by a local health department as the location of a COVID-19 outbreak or when there are three or more COVID-19 cases in an exposed workplace within a 14-day period.

(2) This section shall apply until there are no new COVID-19 cases detected in a workplace for a 14-day period.

### (b) COVID-19 testing.

(1) The employer shall provide COVID-19 testing to all employees at the exposed workplace except for employees who were not present during the period of an outbreak identified by a local health department or the relevant 14-day period(s) under subsection (a), as applicable. COVID-19 testing shall be provided at no cost to employees during employees' working hours.

(2) COVID-19 testing shall consist of the following:

(A) Immediately upon being covered by this section, all employees in the exposed workplace shall be tested and then tested again one week later. Negative COVID-19 test results of employees with COVID-19 exposure shall not impact the duration of any quarantine period required by, or orders issued by, the local health department.

(B) After the first two COVID-19 tests required by (b)(2)(A), employers shall provide continuous COVID-19 testing of employees who remain at the workplace at least once per week, or more frequently if recommended by the local health department, until this section no longer applies pursuant to subsection (a)(2).

(C) Employers shall provide additional testing when deemed necessary by the Division through the Issuance of Order to Take Special Action, in accordance with title 8 section 332.3.

(c) Exclusion of COVID-19 cases. Employers shall ensure COVID-19 cases and employees who had COVID-19 exposure are excluded from the workplace in accordance with subsections 3205(c)(10) and (c)(11) and local health officer orders if applicable.

(d) Investigation of workplace COVID-19 illness. The employer shall immediately investigate and determine possible workplace related factors that contributed to the COVID-19 outbreak in accordance with subsection 3205(c)(3).

(e) COVID-19 Investigation, review and hazard correction. In addition to the requirements of subsection 3205(c)(2) and 3205(c)(4), the employer shall immediately perform a review of potentially relevant COVID-19 policies, procedures, and controls and implement changes as needed to prevent further spread of COVID-19. The investigation and review shall be documented and include:

(1) Investigation of new or unabated COVID-19 hazards including the employer's leave policies and practices and whether employees are discouraged from remaining home when sick; the employer's COVID-19 testing policies; insufficient outdoor air; insufficient air filtration; and lack of physical distancing.

## COVID-19 Prevention Program

An Addendum to the Injury and Illness Program: *In accordance with TITLE 8, DIVISION 1, CHAPTER 4, Subchapter 7. General Industry Safety Orders Section 3205, COVID-19 Prevention*

(2) The review shall be updated every thirty days that the outbreak continues, in response to new information or to new or previously unrecognized COVID-19 hazards, or when otherwise necessary.

(3) The employer shall implement changes to reduce the transmission of COVID-19 based on the investigation and review required by subsections (e)(1) and (e)(2). The employer shall consider moving indoor tasks outdoors or having them performed remotely, increasing outdoor air supply when work is done indoors, improving air filtration, increasing physical distancing as much as possible, respiratory protection, and other applicable controls.

(f) Notifications to the local health department.

(1) The employer shall contact the local health department immediately but no longer than 48 hours after the employer knows, or with diligent inquiry would have known, of three or more COVID-19 cases for guidance on preventing the further spread of COVID-19 within the workplace.

(2) The employer shall provide to the local health department the total number of COVID-19 cases and for each COVID-19 case, the name, contact information, occupation, workplace location, business address, the hospitalization and/or fatality status, and North American Industry Classification System code of the workplace of the COVID-19 case, and any other information requested by the local health department. The employer shall continue to give notice to the local health department of any subsequent COVID-19 cases at the workplace.

(3) Effective January 1, 2021, the employer shall provide all information to the local health department required by Labor Code section 6409.6.

*Note: Authority cited: Section 142.3, Labor Code. Reference: Sections 142.3 and 144.6, Labor Code.*

## COVID-19 Prevention Program

An Addendum to the Injury and Illness Program: *In accordance with TITLE 8, DIVISION 1, CHAPTER 4, Subchapter 7. General Industry Safety Orders Section 3205, COVID-19 Prevention*

### § 3205.2. Major COVID-19 Outbreaks.

#### (a) Scope.

(1) This section applies to any place of employment covered by section 3205 when there are 20 or more COVID-19 cases in an exposed workplace within a 30-day period.

(2) This section shall apply until there are no new COVID-19 cases detected in a workplace for a 14-day period.

(b) COVID-19 testing. Employers shall provide twice a week COVID-19 testing, or more frequently if recommended by the local health department, to all employees present at the exposed workplace during the relevant 30-day period(s) and who remain at the workplace.

COVID-19 testing shall be provided at no cost to employees during employees' working hours.

(c) Exclusion of COVID-19 cases. Employers shall ensure COVID-19 cases and employees with COVID-19 exposure are excluded from the workplace in accordance with subsections 3205(c)(10) and (c)(11) and any relevant local health department orders.

(d) Investigation of workplace COVID-19 illnesses. The employer shall comply with the requirements of subsection 3205(c)(3).

(e) COVID-19 hazard correction. In addition to the requirements of subsection 3205(c)(4), the employer shall take the following actions:

(1) In buildings or structures with mechanical ventilation, employers shall filter recirculated air with Minimum Efficiency Reporting Value (MERV) 13 or higher efficiency filters if compatible with the ventilation system. If MERV-13 or higher filters are not compatible with the ventilation system, employers shall use filters with the highest compatible filtering efficiency. Employers shall also evaluate whether portable or mounted High Efficiency Particulate Air (HEPA) filtration units, or other air cleaning systems would reduce the risk of transmission and shall implement their use to the degree feasible.

(2) The employer shall determine the need for a respiratory protection program or changes to an existing respiratory protection program under section 5144 to address COVID-19 hazards.

(3) The employer shall evaluate whether to halt some or all operations at the workplace until COVID-19 hazards have been corrected.

(4) Any other control measures deemed necessary by the Division through the Issuance of Order to Take Special Action, in accordance with title 8 section 332.3.

(f) Notifications to the local health department. Employers shall comply with the requirements of section 3205.1(f).

*Note: Authority cited: Section 142.3, Labor Code. Reference: Sections 142.3 and 144.6, Labor Code.*
